MATERIALS AND CONSTRUCTION

Additively manufactured polymer, printed as one continuous open-lattice structure with no metal stays and no assembly.

Water resistant and hand washable: mild soap, cool to lukewarm water, air dry. Avoid the dishwasher, washing machine, hot water and direct heat.

Patent-pending Struxaform™ lattice architecture.

ORDERING

Volume pricing, purchase orders and tax-exempt purchasing available.

Free evaluation samples for qualifying organizations.

Made to order in Colorado, so quantities and colorway mixes are flexible.
